

## **Guidelines regarding submission of Research Protocols for IEC Approval on GMCH website**

“As desired by Director Principal and subsequently approved by Institutional Ethics Committee (IEC), in order to reduce paper work, it has been decided to submit only 4 copies of Research Protocols alongwith one soft copy of the same in a single PDF file signed by all PI/Co-PIs to be attached on [iec.gmch32@gmail.com](mailto:iec.gmch32@gmail.com). The number of hard copies to be submitted will be reduced further in a phase wise manner to opt for an environment friendly initiative. It is also essential to submit clear approval (not conditional/pre-approval) of Research Committee of the institute for including protocol for IEC approval. Without Research Committee approval projects will not be considered for IEC approval.”
